

QUALITY POLICY

It is the established policy of BJD Crushers Limited, to supply goods and services which comply with the requirements of the Customer. These products must provide safe and reliable operation, meeting applicable regulatory and required quality standards.

BJD Crushers aim to be recognised as the leading United Kingdom supplier of quality machinery and after-market services to the manufacture of equipment for concrete crushing, screening, roadworks and mining sectors. In order to achieve this goal, the company's resources are concentrated on achieving a high reputation for quality, innovation and cost effectiveness.

In order to comply with this policy, BJD Crushers operates within the framework of a formal Quality Management System which conforms to the international ISO 9001: 2015 standard and all other local and customer requirements. The company is committed to maintaining and continually improving the effectiveness of this system in order to ensure Customer satisfaction and a high level of service.

The Quality Manual, together with the company's Operating Procedures, Work Instructions and other quality documentation acts as a framework for establishing and recording quality objectives. These are monitored and reviewed to ensure the Quality Management System is operated as planned to achieve the targets and policy of the company. The Quality policy and structure is available to every employee, all of whom have undertaken a comprehensive induction programme.

As Chief Executive Officer I take ultimate responsibility for quality and support every employee in playing their part to achieve quality products and a quality service.

Signed: _____

Mr C. M. Ridgway OBE DL
Chief Executive Officer
